

2006 SPECS

Case Construction Equipment

Case K-Series dozers can negotiate varying site conditions with their hydrostatic PowerSteer system, which features single-lever control of direction and steering. One hydrostatic motor and planetary gear

powers the tracks at variable speeds during turns for smooth, responsive steering. Fingertip low-effort servo hydraulic controls and extra-long track undercarriages deliver precision grading ability. Wide-open visibility and a quiet cab enhance productivity.

Case Construction Equipment

Model	Net HP	Operating Weight (lbs.)	Drivetrain Type	Blade Capacity Range (cu. yds.)	Blade Width (in.)
650K	74.8	19,400	Hydrostatic, PowerStat	2.6	96
750K	81	20,200	Hydrostatic, PowerStat	2.6	96
850K	96	20,700	Hydrostatic, PowerStat	2.73	96
1650K	140	33,780	Hydrostatic, PowerStat	4.12	126-158
1850K	180	45,800	Hydrostatic, PowerStat	7.3	135-154
